

CE Notice

CE Products with the CE marking comply with the Radio Equipment Directive (2014/53/EU), the Electromagnetic Compatibility Directive (2014/30/EU), the Low Voltage Directive (2014/35/EU) - issued by the Commission of the European,

Compliance with these directives implies conformity to the following European Standards:

EN300328 V2.1.1
EN301489-1:17 V2.1.1
EN62368-1:2014+A11:2017
EN55032:2015+AC:2016(ClassB);
EN55035:2017
EN62311:2008

Please read the instruction manual carefully before using the product

Product specification

AC/DC adapter (EU type)	INPUT:100-240VAC/Max0.25A-50/60Hz OUTPUT:5-VDC/1.0A
----------------------------	--

Product name	Wireless Smart Gateway
Adapter output	5V \equiv 1A
Working temperature	-10°C~55°C
Working humidity	10%~90% RH (no condensation)
Wireless technology	2.4G Wi-Fi
	ZigBee 3.0 / BLE / SigMesh
Dimensions	60X60X15mm
Net weight	33g

Packing List

- Smart Gateway x 1
- Adapter x 1 (optional)
- Data cable x 1
- User Manual x 1

This device complies with Part 15 of the FCC Rules, Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body

HUBI
Zigbee Gateway

**QUICK
GUIDE**

Product Description

This mini smart gateway is the control center for Zigbee compatible devices. It connects to the app for adding, reset of Zigbee compatible devices, third-party control, and Zigbee group control.

Users can design and implement smart home scenarios by adding Zigbee devices through the gateway.

It consists of a highly integrated Wi-Fi module, low power-consuming Zigbee module, and PCBA.

Preparation For Use

- 1 Sensbi app is available for both iOS and Android OS. Search the name "SENSBI" in App Store or Google Play.

Sensbi app controls all of your smart products!

- 2 Open the Wi-Fi of your phone, click on the "+" in the upper right corner, and select "Wireless Gateway (Zigbee)", "Wireless Gateway (Bluetooth)" or "Multi-Mode Gateway(BLE+Zigbee)".
- 3 The gateway to be added will automatically appear, and please follow the instructions in the App.
