

DH-SD4D225MB-HNR

2MP 25x Smart Dual Light WizSense Network PTZ Camera

Wiz Sense

Launched by Dahua Technology, WizSense is a series of Al products and solutions that adopt independent Al chip and deep learning algorithm. It focuses on human and vehicle with high accuracy, enabling users to fast act on defined targets. Based on Dahua's advanced technologies, WizSense provides intelligent, simple and inclusive products and solutions.

Series Overview

With its powerful optical zoom and precise pan-and-tilt capabilities, the PTZ camera offers a comprehensive solution for long-distance outdoor video surveillance. Its smart dual light and AI-ISP technology ensure that images are clear and vibrant both at night and in low-light conditions. This advanced combination significantly improves nighttime surveillance, making it easier to capture critical details that traditional night vision systems might miss.

Functions

Smart Dual Light

Dahua Smart Dual Light technology adopts smart algorithm to detect targets. Usually, the IR illuminator is on at night; when the target appears in the monitoring area, the white light is on, and the camera records the full-color video and information of key events. That is, the camera links snapshot and video with full-color image. When the target is out of the monitoring area, the white light is off and the IR illuminator is on, which reduces light pollution efficiently.

- 1/2.8" STARVIS[™] CMOS
- · 25× optical zoom
- · Starlight technology
- · Max. 50/60fps@2M
- · IR distance up to 100 m
- · Warm light distance up to 100 m
- · Perimeter protection
- · Face detection
- · SMD 4.0
- IP67

Face Detection

Supports 6 attributes and 8 expressions: Gender, age, glasses, face mask, beard and expressions (anger, sadness, disgust, fear, surprise, calm, happiness, and confusion). It also supports face cutout settings: Face, and single inch photo. Three snapshot methods are also featured: Real-time snapshot, priority snapshot, and quality priority.

IVS

With advanced video algorithm, Dahua IVS technology supports intelligent functions, such as tripwire and intrusion.

Auto Tracking

This feature controls the pan, tilt and zoom actions of the camera to automatically track an object in motion, to keep it in view of the camera. Tracking can be triggered manually or automatically by defined rules. Once a rule is triggered, the camera can zoom in and track the defined target automatically.

SMD4.0

Dahua Smart Motion Detection technology works with intelligent algorithms to classify targets that trigger motion detection alarms. It filters out objects that are not targets, such as small and large animals, to avoid triggering false alarms.

Protection (IP67, TVS 6000 V)

IP67, TVS 6000 V lightning proof, surge protection, and voltage transient protection.

Scan

Technical Specification							Power-off Memory	Yes
Camera					Idle Motion	Preset;Pattern;Tour;Scan		
Image Sensor		1/2.8" CMOS				Intelligence		
Pixel		2 MP					Tripwire; intrusion; crossing fence detection; loitering	
Max. Resolution		1920 (H) × 1080 (V)					IVS (Perimeter Protection)	detection; abandoned/missing object; fast moving; parking detection; people gathering; human alarm classification; linkage tracking
ROM		4 GB						Supports face detection, optimization, capturing pictures, uploading high-quality face snapshots and enhancing face images. Attribute Extraction is also
RAM		1 GB						
Electronic Shutter Speed		1 s-1/30,000 s					supported, where 6 attributes and 8 expressions can	
Scanning System		Progressive					Face Detection	be detected. Face cutout is also offered, where you can cutout one face at a time and customize the size
Min. Illumination		0.005 lux@F1.6 (Color, 30 IRE); 0.0005 lux@F1.6 (B/W, 30 IRE); 0 lux (illuminator on)					to be a one-inch photo. The supported methods for capturing snapshots are real-time capturing, quality first, and selecting a preferred image among a group of snapshots.	
Illumination [Distance	100 m (328.08 ft) (IR); 100 m (328.08 ft) (Warm light)					Smart Tracking	Auto Tracking 3.0
Illuminator On/Off Control		Zoom Prio; Manual; Auto; Off					SMD	SMD 4.0
Illuminator Number		2 (IR); 2 (Warm light); 2 (Dual-core light)						Uses deep learning algorithms and works with backend devices to accurately match targets, such as people and motor vehicles, and search through live and recorded videos to quickly locate targets
Lens							AcuPick	
Focal Length		4.8 mm-120 mm						It triggers the IVS rule when a target is detected and
Max. Aperture		F1.6-F3.5					Auto Patrol	makes the camera link with the PTZ to rotate to the position of the target and patrol based on its presets
Field of View		H: 57.48°–3.2°; V: 32.54°–1.81°; D: 65.92°–3.65°					Video
